PROFILE

I'm a passionate and dedicated Information Technology student with a strong foundation in IT support, networking, programming (Python, Java, PHP, Laravel, MySQL), and database management. Eager to apply my skills in a real-world IT environment through an industrial attachment. A fast learner with excellent problem-solving, teamwork, and communication skills, committed to continuous learning and professional growth.

WORK EXPERIENCE

Software Development   DEC 2024 - PRESENT
KAFU Asset Management System

- Three other members and I are currently working on creating an asset management system as an innovation in our institution.

Software Development   Feb 2025 - April 2025
Barcode Generator Application

- I created a Barcode Generator Application as a third-year project that can be able to Scan and generate different types of Barcodes for asset tagging and tracking

Industrial Training   13th May 2024 - 15th July 2024
Kaimosi Friends University

- Installed and configured servers (Ubuntu & Windows) for enterprise environments.
- Set up and maintained network infrastructure, including installation and crimping of Ethernet cables.
- Developed Android applications, implementing key functionalities and troubleshooting issues.
- Configured and managed remote connections for secure access to systems.
- Facilitated file sharing over a network, ensuring seamless data exchange.
- Gained hands-on experience in IT support, troubleshooting, and system administration.
